Assignment Paper :- 1st

Subject : Child Psychology

SECTION - A

Que: what is the impact of School on development of child personality?

Ans - School and child development :-

A child's Personality is influenced by his School where he comes into contact with his teacher and his colleagues. At home the child's ideals are his parents and in school he forms his ideals around his teachers. A child hates a teacher who is cruel and uses the stick. Putting in briefly every behaviour of teacher towards child, leaves some influence upon the child's mind.

Influence of Playmates and class fellow :-

Normally, the child's class fellow in School his/her playmates and friend, though sometimes child makes friends with children belonging to other classes. The same thing happened when two children of different age level comes into contact.

Influence of Group of the child :-

Individual

Influences do count but the most important influence upon the child in the school is the influence of the group of his/her colleagues in the play ground. A child's function is any such group co-incident with his/her personality, while they performing of his/her function influences his personality.

Growth of Community and Sentiments:-

Modern psychology does not credit the existence of any group mind distinct from the mind of individual, but the group situations the laws of group behaviour are freely employed. A college is psychological group.

1. Presence of Group:-

A college in its role as a group, should possess certain degree of presence or physical stability. Naturally some students join the college every year while others leave it and some change is always going on the shape of additional building staff members changing their college etc. This can help them to develop a community feeling which is part of

their greater community feeling comprehending
there society as a whole.

2. Group study by members and members
understanding of ~~his~~ its duties and
function :-

Each student is the members
of college group. He can have
community feeling for its only if he
learns to regard it as a group
realize the duties that he has to
perform as student and has knowledge
of the college rules and method
of working.

SECTION - D
